

CARE & MAINTENANCE

Lexta products are durable and of high quality. With proper care and maintenance, your products will last for a long time. Here are some general care guidelines. Please refer to the original material manufacturer for full care and maintenance instructions, and warranty terms.

FABRIC

- Vacuum gently but regularly.
- Use the services of professional cleaners when a more thorough cleaning is required over time.
- Tend to stains and spillage immediately.
- For non-removable covers, the best cleaning methods are hot water extraction, on-site dry cleaning, or shampoo cleaning.
- Applying a fabric protectant to your upholstered furniture can result in the nullification of your fabric manufacturer's warranty. Please clarify on this before getting a stain guard applied.

VINYL

- Clean regularly with soap and warm water.
- Dry with a clean, lint-free cloth.
- To remove persistent stains, gently wipe the affected area with alcohol, then rinse with warm water, and dry with a soft, clean cloth.
- Use vinyl cleaners in strict accordance with the manufacturer's instructions.
- Keep away from direct sunlight and heat sources.

LEATHER

- Dust regularly with a clean and dry, lint-free duster or cloth.
- If you need to wipe down an area, dust it first to ensure grainy particles do not scratch the surface.
- If there is liquid or moisture on the surface, wipe it all away immediately with a clean, dry cloth.
- Only use proprietary leather cleaners in strict accordance with the manufacturer's instructions.
- Keep away from direct sunlight and heat sources.
- Do not use foreign, non-specific, cleaning products.
- Clean frequent contact areas such as armrests and headrests regularly to avoid build-up of body oils. a stain guard applied.

METAL

- Stainless steel - clean surfaces regularly with cotton-wadding polish to remove dirt build-up, then polish dry with a soft, lint-free cloth.
- Powder-coated metal - clean surfaces regularly with a soft, lint-free cloth dampened in mild detergent and warm water.
- Chrome – use a cotton wadding polish for cleaning chrome.
- To prevent tarnishing, apply a soft wax paste onto metal surfaces.

TIMBER

- Dust regularly with a cloth or feather duster.
- Use coasters under cold, hot, or damp objects.
- Lightly buff the surface in the direction of the wood grain with a soft lint-free cloth from time to time.
- Remove liquid spills immediately.
- Never use an abrasive cleaner.
- Avoid exposure to direct sunlight, radiators, air conditioning, vents, humidifiers, or fireplaces.

CARE & MAINTENANCE

VENEER

- Clean with a soft, lint-free cloth that's been dampened with warm water mixed with diluted, mild detergent.
- To remove stains or food oils, apply a mixture of warm water and diluted, mild detergent to the surface. With a soft bristle brush, lightly brush the surface in circular motions. Rinse surface thoroughly, then gently buff dry with a soft lint-free cloth in a light circular motion.
- Ensure that water does not pool on veneer or timber edge.
- Avoid using polishes or sealers.
- Never use steel wool, hot water, solvents, or an abrasive cleaner.

HIGH PRESSURE LAMINATE

- Clean regularly with a soft, damp cloth and mild soap.
- Avoid abrasive cleaners, scouring pads, and steel wool.
- Use coasters and wipe up spills promptly.
- Use cutting boards to prevent scratches.
- Prevent impact damage from heavy objects.
- Avoid harsh chemicals and solvents.
- Check for damage and repair as needed.
- Protect from prolonged sunlight exposure.

MARBLE

- Clean regularly with a soft, dry cloth or mop.
- Avoid acidic or abrasive cleaners.
- Use a pH-neutral cleaner made for marble.
- Wipe up spills immediately to prevent staining.
- Protect against heat and moisture with coasters and mats.
- Seal periodically according to instructions.
- Avoid heavy impact or pressure.
- Polish occasionally using marble-specific polish.
- Avoid contact with bleach, ammonia, or harsh chemicals.
- Consider professional maintenance for deep cleaning and restoration.

GLASS

- Clean regularly using a soft, lint-free cloth or glass cleaner.
- Avoid abrasive materials and rough scrubbing.
- Use placemats or coasters to prevent scratches.
- Handle with care to avoid drops or impacts.
- Avoid extreme temperatures.
- Wipe up spills promptly.
- Use appropriate cleaning solutions for your glass.
- Check for chips or cracks and seek professional repair if needed.
